Ethical Hacking with Kali Linux

30 Days | 60 Hours | Rs. 20000

01 | Kali Linux Basics
02 | Advanced Networking for Hackers
03 | Server Management on Kali
04 | Identity Changing
05 | Social Media Account Hacking and Security
06 | Password Hacking
07 | Metasploit : The Ultimate Hacking Framework
08 | Advanced Payload Execution in Target System
09 | WIFI Hacking and Security
10 | Tracking Person
11 | Scanning with Nmap s
12 | Hacking Metasploitable with Metasploit and Nmap
13 | Website Hacking and Security
14 | Sniffing
15 | Advanced Spoofing and Bombing Techniques
* | Plan to Hack a PERSON | COMPANY :)

01 | Kali Linux Basics

Kali : Introduction
Kali : History
Kali : Download and Importing in Virtual Box
Kali : Basic Commands
Kali : General User and Root User
Kali : Setup Root User Password
Kali : User Management
Kali : File Sharing with Windows
Kali : Set Network Bridge or NAT
Kali : File And Folder Deletion
Kali : File Permissions
Kali : Software Installation from GITHUB
Kali : Software Installation from REPOSITORY

02 | Advanced Networking for Hackers

Network
OSI Model
TCP/IP Protocols
Working of HTTP and HTTPS
Working of FTP
Working of DNS
Working of DHCP
Working of SMTP
Working of POP3 and IMAP
Working of TELNET
Working of SSH
Working of NTP

| Switching

Intro to Switch
Types of Switsch : Managable and Non-Managable
How Systems Talks with Eachother on Network
Introduction to NETWORK SWITCH : CISCO

| Routing

How RIP Works
How OSPF Works
Introduction to NETWORK ROUTER : CISCO

03 | Server Management on Kali

Setup SSH Server on Kali
Setup Web Server on Kali
Setup Remote Desktop on Kali

04 | Identity Changing

Understanding IP Address in Details
Understanding MAC Address in Details
Change IP Address on Kali
Change MAC Address on Kali
Change OS and Browser on Kali

05 | Social Media Account Hacking and Security

Hacking Social Media Accounts using Keystrokes Capture : zlog
Hacking Social Media Accounts using Phishing
Hacking Social Media Accounts using Bruteforce Attack : SocialBox
Hacking with Social Engineering Toolkit

06 | Password Hacking

Hacking KALI Password
Hacking WINDOWS Password
Kali : Remote Access using SSH Server

07 | Metasploit : The Ultimate Hacking Framework

History | Use
Commands for Android/Windows
Port Forwarding for WAN Attacks
Hack 01 | Windows Payload using MSFVENOM on LAN and WAN
Hack 02 | Android Payload using MSFVENOM on LAN and WAN
Hack 03 | Hacking Windows 7 witn NSA Exploit

Hack Windows using Advanced | 888 Trojan

Send File to Target with LINK : JustBeamIt.com
Bind EXE File with other EXE : Two Exe Binder
Change Icon of EXE : Trojan [Metasploit]
Mask Malicious File URL link to Normal : MaskPhish

08 | Advanced Payload Execution in Target System

Method 01 | Download and Execute Payload Automatically
Method 02 | Download and execute file using AUTOIT

09 | WIFI Hacking and Security

Basics of Wifi Technology
Jam Wifi using MDK3
Jam Wifi using Aircrack-ng
Making of Wifi Jammer Device using NodeMCU 8266 Chip
Find Saved WIFI Passwords from Linux Systems

Hacking WPA and WPA2 without WORDLIST
Creating WORD LIST
Cracking WPA and WPA2 Using a Wordlist

10 | Tracking Person

Information Gathering :
- Track IP Address of the Person
- Track PICTURE of the person
- Instagram Information Gathering
- Sherlock : Find Same Usernames

11 | Scanning with Nmap

Scanning with Net Discover
Scanning with Nmap
Basic IP or HOST Scan
Scanning a Range
Scan Specific Port
OS Detection
Service Version Detection
Most Useful Nmap Command

12 | Hacking Metasploitable with Metasploit and Nmap

Setup Metasploitable
Understanding Vulnerability
Finding Exploit
Running Exploit

Hacking FILE SERVER : Metasploit
Hacking APACHE WEB SERVER : Metasploit
Hacking WEB SERVER using DOS Attack : Metasploit
Hacking IRC SERVER : Metasploit

13 | Website Hacking and Security

Whois lookup
Website Technologies Discovery
Discovering Websites on the Same Server
Discovering Subdomains
Discovering Sensitive Files
Analysing Discovered Files
Fingerprinting Web Server

Scraping Complete Website

Finding Vulnerability : Scanning Website with Skip
Finding Vulnerability in Wordpress Sites : Scanning Wordpress with WP

Advanced DOS Attack using Kali
Advanced DDOS Attack using Kali

14 | Sniffing

What is Sniffing ?
Intro to ARP and RARP
ARP Spoofing
Sniffing using Wireshark on Kali
Sniffing using Wireshark on Windows

15 | Advanced Spoofing and Bombing Techniques

SMS Spoofing
Call Spoofing
Mail Spoofing
Advanced SMS Bombing
Advanced Call Bombing
Advanced Mail Bombing
